## EXCITING TIMES

Edison Co WK 18 June 2024

**WEEKLY REPORT FROM THE HEAD TEACHER**

Dear Parents & Carers,

I am pleased to report that I am now back on my feet and up and about - the operation has gone as planned. Dexter (the dog) is looking after me and keeping me company.

I have enjoyed hearing about the Year 5 and 6 football against St Paul's last week, and the Edmanscote Area Final earlier this week - more follows on the next pages. The happy and bright faces of our Year 6 pupils enjoying their PGL experience at Bonetton Park this week is also helping with my recovery. I hope you are enjoying the updates via Facebook too.

I am currently reading the pupil reports that will be published to parents and carers before the end of term - you should be very proud of your children (they have worked extremely hard this year).

I am missing you all and will continue to keep up to speed with the wonderful end of term learning at Lillington.

Have a lovely weekend.

Mrs Wallace  
Head Teacher

## WEEKEND CHALLENGE 13

### Nature Mandalas

- A mandala is a circular design built around a central point.
- Choose one natural item to be the centre of your mandala. Depending where you are, it could be a pebble, a leaf, a shell - anything you like!
- Gather similar materials and create a ring of these around your central point. You could start with small grey pebbles, for example.
- Now collect a different material (or different colour, shape or size) and create the next ring. This time, it could be orange leaves that you collect.
- Keep adding circles (these will get bigger and bigger) until you are happy with your mandala design.

## NURSERY 2 YEAR OLDS

## WEEKEND CHALLENGE 12

### Challenge of the week

#### National Festival of Fieldwork June 2024

Go for a walk around Lillington / your road.

**Geographical Association**

**Fieldwork**

**How do people personalise their houses?**  
We tend to personalise our possessions - we like our own individuality to come through. The same exists with our homes.

**What is the style, age and layout of the area?**  
How are the houses different?  
This might include changes on the building - adding porches, changing windows, adding hanging baskets, painting the outside, giving it a name.

Also look for changes in the environment around the houses - creating gardens, plant tubs, concreting the front for car parking, putting up fences. Is there a dropped curb?  
Can you draw and label a picture of two different houses?

## Family Learning Courses

What is Family Learning? Family Learning offers courses and workshops for parents and carers to develop their understanding of how their children learn, through meaningful, practical activities. We help families to live their best lives by supporting parents to give their children the best start through a rich home learning environment. We empower parents through the acquisition of knowledge, understanding and skills to support their children's learning and development. We help learners to progress to further learning and employment — to contribute to a thriving local economy. Our courses and workshops are informed by research-based approaches to education.

Some courses are for parents and carers to attend alone and others are for families to attend together.

## Challenge of the week

### National Festival of Fieldwork June 2024

Go for a walk around Lillington / your road.

How do people personalise their houses?

We tend to personalise our possessions - we like our own individuality to come through. The same exists with our homes.

What is the style, age and layout of the area?  
How are the houses different?

This might include changes on the building - adding porches, changing windows, adding hanging baskets, painting the outside, giving it a name.

Also look for changes in the environment around the houses - creating gardens, plant tubs, concreting the front for car parking, putting up fences. Is there a dropped curb?

**Can you draw and label a picture of two different houses?**

# WEEKEND CHALLENGE 11

This week's challenge is a **bumper** physical activity linked to EURO 24 which starts tonight.

All the activities need minimal equipment - a ball and objects to use as markers. If you haven't got a ball, roll up a couple of pairs of socks together to make a ball. Ask a parent or carer to take a photo of you doing one or more of the activities and send it to

[admin@lillingtonprimary.com](mailto:admin@lillingtonprimary.com) to get 5 class chart points for each activity.

Research a local or national charity that is important to you or your family. You could prepare a speech for your class about the charity or design a poster to share why this is important to you. Perhaps you have donated your time or are planning to raise money for a charity that is special to you.

# ★ ★ ★ ★ WEEKEND CHALLENGE 9 ★ ★ ★ ★

## Design and make models

**Age range:** EYFS and KS1

Build a house using boxes and other materials. First though, you need to design the house. Before a house can be built, an architect has to draw what is to be built. You are to be architects! Draw the house then build their design.

## Make a money box

**Age range:** EYFS and KS1

What you do: You'll need a box or can which you can make a slot in at the top for the money to go in. Together, decide how to create a flap through which the money box can be opened.

## 'Cook' granola pots

**Age range:** KS1

What you do: Choose a recipe to use - there are lots online. Prior to cooking discuss what you need to do (tie long hair back, wash hands, put on an apron). Then talk about what you're going to make, explaining why it's a healthy choice for breakfast or dessert. Look through the recipe together.

## Design a boat

**Age range:** KS2

What you do: Select and look at pictures of boats. Search the internet together; look at different designs for various purposes. Look at the materials that are used for building boats, any pulley systems and sails. Design a boat for a specific purpose (travelling, fishing, exploring), thinking carefully about the materials you would use, the way the boat would travel and how many people would be able to travel in it.

★ ★ ★ ★ WEEKEND CHALLENGE 7 ★ ★ ★ ★

This week it is time for a geography challenge.

Can find a flag from any country in the world and draw or paint it?  
What can you discover about your chosen country? Language(s) spoken, population, which continent, what is the climate. As much information as you discover.

Or you could create a junk model map or globe. Bonus points if you can add details like the equator, continents and oceans.

Will your entry make the new challenge display board?

# ★ ★ ★ ★ WEEKEND CHALLENGE 6 ★ ★ ★ ★

Inspired by the work of Georges Seurat, practice Pointillism at home using a cotton bud, some paint and paper! Draw out your picture and carefully fill it in with dots using the cotton bud.

Another idea is to take a sheet of patterned kitchen roll and use felt tip pens to follow the design!

## History Detectives

For the weekend challenge this week, we will be focusing on history. Miss Porter would like you to research a local person of interest - Shakespeare, Jephson or Whittle are some names for inspiration.

You can draw a picture, create a non chronological report, show off your computing skills and create a PowerPoint or see if you can write a set of clues for us to try and guess who your person of interest is.

**Dr Henry Jephson**

**Sir William Shakespeare**

**Sir Frank Whittle**

Here is a lovely science activity you can do at home. Children of all ages can have a go, but you will need adult supervision as scissors will be needed. I would love to see some pictures of your parachute creations, please email them to the office: [admin@lillingtonprimary.com](mailto:admin@lillingtonprimary.com).

## Awe and Wonder Plastic Bag Parachutes

You will need:  A square of plastic bag material  A plastic person  String  A hole punch  Scissors

### The Science Bit

When you release the parachute the weight pulls down on the strings and opens up a large surface area of material that slows down the person. The larger the surface area the more air resistance and the slower the parachute will drop.

### Method:

1. Cut off across the corners of the square, creating an octagon shape.
2. Hole punch in the middle of each side.
3. Put a piece of string through each of the 8 holes and tie.
4. Gather the 8 pieces of string together and tie to your plastic person.
5. Cut out a small circle from the centre of your parachute to let air pass through gently.
6. Get up somewhere high, on top of a climbing frame or up some stairs.
7. Hold the centre of your parachute, with the person underneath. Let go and watch how they travel to the ground.
8. Does the parachute open? Does the person travel fast or slow? Does the person go straight down or to one side? Does it spin? What could you do differently?

## Blindfolded Obstacle Course Orienteering Activity

**Equipment:** blindfolds – per pair; cones, low level hurdles, hoops, beanbags

**Preparation and set-up:** Use the equipment to set up a range of different courses for the children to direct their partner through - see the example course shown.

### What to do:

- Organise the children into pairs, with a blindfold per pair.
- Prior to having a go at the obstacle course blindfolded, let the children familiarise themselves with wearing a blindfold and directing one another. The first command they should practise is 'Stop'.
- Use one of the courses, already set up, to explain the activity.
- Children take it in turns to direct their blindfolded partner through the course.
- The aim is for the blindfolded child to work their way through the course, without touching the equipment.
- Encourage the use of directional language, such as forwards, backwards, left and right.

### Directions:

1. Zigzag in-between the cones.
2. Step inside each of the hoops.
3. Step over the hurdles.
4. Walk 360° around the beanbag.

### Differentiation:

- The courses that you set up can be as easy or as challenging as you wish to make them, by varying the number of obstacles you include and how close together or far apart the equipment is laid out.
- Add a timed element for completing the courses. For this, you may want to have several smaller courses set out. To ensure safety, emphasise that the children are racing against a clock and not other pairs.
- Children set up their own courses, to gently guide their partner through.

Emphasise to children the importance of always keeping their blindfolded partner safe, by getting them to stop if there are any objects or obstacles in their way that might be a trip hazard or that they could bang into.

Here you'll find a super simple and easy to use blindfold challenge for your own children.

This orienteering activity is a perfect way to encourage teamwork with your children, as they partner up and guide each other through the activity.

It is also the first steps into simple computer programming!
